Have a look at these clever new kitchen tools from Joseph Joseph

This week we have received some exciting new products from the innovative designers at Joseph Joseph.

Twin brothers Richard and Antony Joseph founded Joseph Joseph in 2003. Specialising in contemporary kitchenware, Joseph Joseph is now internationally recognised for producing some of the most stylish and technically innovative products available.

Their unique ability to match form and function has earned them global recognition for their multi-award-winning designs.

Adjustable rolling pin-£14.95

This rolling pin takes the guesswork out of preparing pizza, pie bases, lasagne sheets and filo pastry. It comes with three sets of removable discs that raise the rolling surface by different amounts, to create the required pastry thickness – either 2mm, 6mm or 10mm.

It ensures that the pastry or dough is rolled to an even thickness throughout and, with measurements etched into the wooden surface, to the exact size required.

Compact herb chopper-£17.95

This stylish design comprises of a non-slip chopping unit and a double hachoir in one.

Simply remove the cutter, chop on the gently curved cutting surface and then safely store the blade back in the compartment.

It is suitable for chopping all kinds of herbs, garlic, ginger, nuts and chocolate, and is dishwasher safe.

Index chopping boards £42.00

Index™ has won numerous design awards. It consists of a stylish storage case and four colour-coded chopping boards. Each board has its own illustrated tab - staggered for convenience – which helps to ensure the same board is used each time for similar food types.

With Index™ you can safely prepare vegetables, fish, raw meat and cooked food separately without having to buy additional chopping boards.

Dishwasher safe.

Look out for our new brochure, full of good ideas for Christmas gifts, that is coming out next month

Look forward to seeing you soon,

Mary, Rivka and Judy
